DEFINITIONS:

Observation: The act of noticing signs of a coyote(s), such as tracks, scat, or vocalizations, but without visual observation of the coyote(s).

Sighting: A visual observation of a coyote or coyote(s). A sighting may occur at any time of the day or night.

Encounter: A direct meeting that is between human and coyote(s) with no physical contact and that is without incident.

Incident: A conflict between a human and a coyote where the coyote exhibits any of the following behaviors: growling; baring teeth; lunging or making physical contact with person. A human is NOT bitten.

Human Attack: A human is bitten by a coyote or coyotes.

Provoked: An attack where the involved human encourages the coyote to engage. Example include a human hand-feeding a coyote, approaching a coyote with pups or intervening in a coyote attack on a pet.

Unprovoked: An attack where the involved human does not encourage the coyote to engage.

Pet Attack: Coyote(s) kills or injures a domestic pet.

Attended: Pet is on a leash less than six feet in length or is in the presence of a person less than six feet away.

Unattended: Pet is free-roaming, walking off-leash more than six feet from a person, or on a leash longer than six feet.
